

FAJAR MAQBOOL

Muzaffarabad, Azad Kashmir, Pakistan • 03408861254 • fjrkazmi@gmail.com

SUMMARY

Computer Science graduate with hands-on experience in software development, web technologies, and machine learning. Comfortable working with Python, JavaScript, and databases to build practical solutions. Strong problem-solving skills developed through academic projects and internship work. Quick learner looking to contribute to a technical team and grow as a software professional.

EDUCATION

Bachelor of Science in Computer Science

Sep 2021 – Oct 2025

University of Azad Jammu and Kashmir, Muzaffarabad, Pakistan

CGPA: 3.8/4.0

Relevant Coursework: Software Testing & Quality Assurance, Database Systems, Web Technologies, Software Engineering

Final Year Project: Deepfake Image Forensics Using CNNs and Transfer Learning

Supervisor: Dr. Maryam Bibi

- Designed deepfake detection system leveraging EfficientNetB0 with custom CNN classification head for manipulated facial image identification
- Built automated preprocessing pipeline including face extraction, normalization, and augmentation to enhance robustness across manipulation types
- Achieved 95.6% training accuracy and 86% cross-dataset validation accuracy demonstrating strong generalization; precision: 75% (fake), 90% (real)
- Conducted architecture and hyperparameter experiments to optimize detection reliability and reduce overfitting
- Deployed Flask-based real-time detection web application integrating TensorFlow and OpenCV for interactive evaluation
- Performed comprehensive testing including functional validation, edge case handling, cross-browser compatibility, and API response verification

Tools: Python, TensorFlow, Keras, OpenCV, NumPy, Pandas, Matplotlib, Flask, Google Colab

PROFESSIONAL EXPERIENCE

Web Development Intern

June 2025 – Aug 2025

AJK IT Board, Government of Azad Jammu & Kashmir, Muzaffarabad

- Developed and integrated RESTful APIs with MongoDB/MySQL for digital automation projects
- Implemented secure authentication (JWT) and code validation practices, enhancing data protection across deployed systems
- Collaborated with development team to reproduce issues, verify fixes, and ensure proper implementation of functional requirements
- Collaborated in an Agile team, using Git/GitHub and Postman for version control and API testing
- Gained exposure to basic testing practices by validating API endpoints and checking functionality of developed features

KEY SKILLS

Programming: Python, C++, JavaScript, SQL

Machine Learning & Computer Vision: TensorFlow, Keras, Scikit-learn, OpenCV, CNNs, Transfer Learning

Databases: MySQL, MongoDB

Tools: Google Colab, Jupyter, Postman

Attention to detail and quality focus

Team collaboration and independent work

Web Development: HTML, CSS, Node.js, Express.js, Flask

Data Analysis: NumPy, Pandas, Matplotlib, Seaborn

Version Control: Git/GitHub

Problem-solving and analytical thinking

Clear communication

CERTIFICATIONS & TRAINING

- **Machine Learning Specialization** – Stanford University (Coursera, Andrew Ng) – 2025
- **IBM Applied AI Professional Certificate** – IBM via Coursera – 2024
- **IBM Full-Stack Software Developer Professional Certificate** – IBM via Coursera – 2023
- **Python for Data Science** – IBM – 2023

HONORS & AWARDS

- **Academic Excellence Award (2025)** – Top 5% of BS Computer Science cohort (CGPA 3.8/4.0), University of Azad Jammu & Kashmir
- **Best Final Year Project Nomination (2025)** – Deepfake Image Detection System recognized for innovation and technical execution
- **HEC State Talent Scholarship (2021)** – Awarded by Higher Education Commission for securing top position at board level nationwide (Grade: 98%)
